EVOshower

SWISS ENGINEERING 

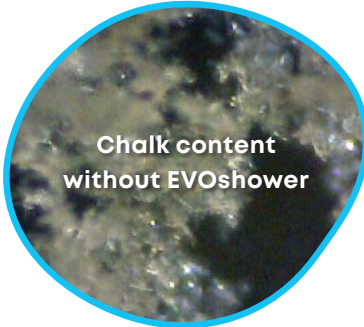

Pure water for pure
showering pleasure.
Protects and cares
for skin and hair.

Soft, clean and «caring» water thanks to our unique sustainable shower filter system.

BENEFITS

- + The EVOshower adsorbs chlorine and removes pollutants and impurities in the micro range
- + Skin and hair become softer and smoother, you need less shampoo and other care products
- + The use of cleaning agents is reduced as lime can no longer settle anywhere
- + Easy installation and commissioning
- + Service free
- + 5 years warranty on material and workmanship

Casing and materials

- + All water-carrying parts are made of stainless steel, material no. 1.4401 and 1.4521 according to DIN EN 10088, DIN EN 10312, DVGW Code of Practice GW 541.
- + System approval for connectors and pipes according to DVGW Code of Practice W 534.
- + Drinking water installations according to DIN 1988.
- + Made of 100% recyclable and corrosion- and erosion-resistant materials according to ISO standard.
